3rd June

$$3\frac{1}{5} \times 30$$

$$4.5 \div 90$$

A cake weighs 850g.

40% of the cake is sugar.

Work out how many grams of sugar are in the cake.

m is a whole number.

6*m* is greater than 40
10*m* is less than 120

Write all the numbers that *m* could be

Find the length of this cuboid
